# FSX 2018 – Moving the Software (v5)

FORESIGHT SPORTS

If you need to move your FSX software from one computer to another, or you have to reinstall your software onto the existing computer, please follow the steps below.

Step 1 – Deactivate your courses:

Courses can be deactivated and reactivated through the FSX software, this would enable you to use the course on another machine if you have not purchased another license for the course. You can download the free of charge courses from the FSX 2018 Updates page on the Foresight Sports website.

- Please open the FSX software and wait for it to load the menu

- Next, please select either the *PLAY* or *IMPROVE* button to load the course menu

- Select the course you wish to deactivate and press the *DE-ACTIVATE* button on the bottom left of the screen

Step 2 – Deactivate your software license:

As a part of your FSX software, you will have been prompted to create an FSX Live account on the Foresight Sports Website - https://performance.foresightsports.com/ . It is through your online FSX Live portal that you can manage your FSX license, courses and activate your offline hours.

- Login to your FSX Live account

- Click in the top right corner under My Account, or click on your username

- Select the *license* tab under the My Account header

- Locate the FSX license you wish to deactivate (Make sure to make a note of the license key)

- Click the *deactivate* next to the key you wish to deactivate

- Now the license will be deactivated and is ready to be used on another computer

FSX 2018 – Moving the Software (v5)

Step 3 – Activate your FSX license:

Once your license code and courses have been deactivated, please open the FSX software on your laptop or desktop computer and enter the activation code when prompted. (You will be prompted to enter your Username, Password and Activation code after FSX has been installed.)

- Please make sure that FSX has already been installed onto the computer before proceeding

- Once installed, the next step would be to open the FSX software where you will see a prompt appear requesting your account information and the activation code

- Please enter in the requested information so the software can contact the server and assign the code to your new laptop or Desktop computer

Step 4 – Activate your courses:

You can download the most recent versions of courses from the FSX 2018 Updates page on the Foresight Sports website.

- Please download the courses one by one from the list provided in the email or from FSX 2018 Updates

- Please install each one after the download has completed.

- After installing every course, please open FSX and go to the Play screen, from here you will be able to see the courses are currently showing as not activated. Please click on the courses one by one to activate them.
