

## Computer Specification

What is the computer specification required to run the FSX 2020 software comfortably?

Processor (CPU) -	7th Generation Quad Core Intel i5 > 3.0GHz
Memory (RAM) -	16GB
Graphics Card (GPU) -	6GB with Memory Bandwidth >200GB/s <i>Nvidia GTX 1060 or greater, preferably a Nvidia GTX1660Ti</i>
	<b><u>DO NOT USE AMD</u></b>
Hard Drive -	250GB SSD or greater
Operating System (OS) -	Windows 10
	<b><u>FSX 2020 WILL NOT WORK ON A MAC</u></b>
Display Output -	1 x HDMI, 1 x DVI / DP (For dual screen mode)

It is possible to run FSX on a lower specification, however the quality of the experience will be affected

The Latest Updates can also be downloaded from the Foresight Sports [FSX2020 Updates](#) page.
